ID	Food Component	Health Relationship	Example Wording	EFSA Screening Criteria	Member States involved						Claim eligible for A13 assessment?
6	Vitamins, minerals, lysine and/or arginine and/or taurine (Pharmaton Kiddi)	Nutritional support during the period of growth for physical development	It helps to support an adequate vitamins/minerals/lysine supplementation in children, in case of unbalanced or insufficient nutrition To support a healthy growth and development in children. When a child is recovering from illness, or has a loss of appetite.	**1**	**UK**						Yes
7	Vitamins, minerals, trace elements and omega-3 fatty acids (incl. DHA) (Pharmaton Mayeslle)	Supply and maintenance of normal levels of vitamins, minerals, trace elements and fatty acids (DHA) in pregnant and lactating and non-lactating women, as well as for women planning to become pregnant.	Appropriate nutritional support to cover increased needs and maintain adequate body levels of vitamins, minerals, trace elements and fatty acids (DHA) specifically for pregnant, lactating and non-lactating women, as well as for women planning to become pregnant. For an adequate improvement of nutritional status in the pre-conceptional period, before pregnancy starts. To maintain normal levels of iron and folic acid within the mother's To adequately cover needs for iron and folic acid during pregnancy.	**3**	**UK**	**BE**					Yes

8	Vitamins, minerals, trace elements and standardized ginseng G115 extract (Pharmaton capsules, film coated tablets, effervescent)	To cover increased needs of vitamins, minerals, trace elements and Ginseng G115 extract specifically in cases of exhaustion, tiredness, feeling of weakness, decreasing concentration as well as decreasing mental alertness	Helps to cover nutritional needs in cases of unbalanced diet. Nutritional support to cover increased needs and to maintain optimal/appropriate levels in the body of vitamins, minerals, trace elements and Ginseng G115 extract specifically in cases of exhaustion, tiredness, feeling of weakness, decreasing concentration as well as decreasing mental alertness. Promote maintenance of physical and mental faculties (especially in elderly) and vitality. Help to reduce tiredness and fatigue. Help to prevent deficiency of micronutrients in elderly adults. Help to sustain energy within the body throughout the day and to help coping with stress.	**3**	**2x UK**	**BE**					Yes
9	Vitamins, minerals, trace elements and standardized ginseng G115 extract (Pharmaton Activit G effervescent tablets)	Physical and mental health	• Scientifically proven: Helps to sustain energy, performance and concentration throughout the day. • Scientifically proven: Helps to maintain mental and physical performance	**3**	**UK**	**DE**					Yes

169	ZMA (comprises the minerals zinc and magnesium, and also contains vitamin B6)	Supports an increase in muscle strength when taken in conjunction with resistance exercise	ZMA increases muscle strength when taken in conjunction with resistance exercise	**0**	**UK**						No
170	ZMA (comprises the minerals zinc and magnesium, and also contains vitamin B6)	Maintains an optimal hormonal environment to support muscular gains	ZMA maintains an optimal hormonal environment to support muscular gains	**3**	**UK**	**FR**					No
176	● Calcium L-methylfolate (syn.: L-5-methyltetra-hydrofolic acid, calcium salt; Vitamin B9), MetafolinTM	Cardiovascular health	● Helps keep arteries/blood vessels healthy; ● Contributes to healthy arteries/ blood vessels; ● Supports heart health by contributing to the normal functioning of the arteries/blood vessels; ● Helps maintain a normal blood pressure by supporting the elasticity of blood vessels/arteries.	**0**	**PT**	**NL**					

177	Calcium L-methylfolate (syn.: L-5-methyltetrahydrofolic acid, calcium salt; (6S)-5-methyltetrahydrofolic acid, calcium salt), Metafolin®	Neurological functions (cognitive performance)	● Helps to support brain functions; ● Helps to support neurological functions; ● Is necessary for normal neurological functions; ● Helps to preserve healthy brain functions; ● Helps to preserve healthy neurological functions;	**3**	**PT**						

196	Vitamins, minerals, lysine and/or arginine and/or taurine	Nutritional support during the period of growth for physical development	It helps to support an adequate vitamins/minerals/lysine supplementation in children, adolescents and adults, in case of unbalanced or insufficient nutrition. To cover increased vitamins/minerals/lysine daily needs especially during periods of intense activity, for healthy physical and mental functions. When someone is recovering from illness, or has a loss of appetite, or simply could benefit from a supplement to the diet, it provides important vitamins, minerals and calcium for bones, as well as amino acids for protein building. These are important for maintaining normal healthy physical and mental functions, healthy teeth, bones, and muscles, supporting a healthy blood circulation, and developing immune system functions.	**3 and 5**	**BE**						
343	Magnesium + green tea extract	Carbohydrate metabolism and insulin sensitivity	Stabilises sugar metabolism. Keeps blood sugar level.	**0**	**FI**						

346	Mineral salt enriched with potassium and magnesium (57% sodium chloride NaCl, 28% potassium chloride, KCl, 12% magnesium sulphate MgSO4 x 7 H2O)	Electrolyte and fluid balance	Removes fluid from the body.	**3 and 4**	**FI**						
372	Combination of Zinc, Vitamin;C, Vitamin E,;beta carotene and copper	Eye health	This combination could contribute to preserve healthy eyes for the elderly.;;It could delay the ageing of eyes due to its antioxidant effect.	**4 and 5**	**HU**						
398	Sodium bicarbonate and citric acid mixture	Anti-acid that helps digestion	• Improves digestion; • Digeston problem solver	**0**	**DE**	**PT**					
441	GAKIC (amino acids glycine and arginine, with alpha-ketoiscaproic acid (KIC)	Improves exercise performance	GAKIC improves exercise performance in less than 1 hour. GAKIC improves sprint cycling performance GAKIC increases work output during repeated cycle sprints. GAKIC increases training intensity GAKIC maintains force output during intense exercise. GAK	**0**	**UK**						No

557	Soy protein + rye and/or flax lignants	Cardiovascular system	Heart-friendly. Rye and flax protect the heart and blood vessels. Rye and flax lignants protect the heart and blood vessels. Soy helps to reduce cholesterol. A daily 6.25 g dose of soy protein reduces cholesterol.	**1**	**FI**						
571	Blackcurrant seed oil + special lecithin + GLA + ALA	Mental state and performance	1. Special lecithin contains fatty acids necessary for the brain in the right form (phospolipids). 2. “Brain capsule” 3. “Memory capsule” 4. Gamma linoleic acid is an important preliminary stage of local hormones. 5. Phospholipids are the building blocks of all cell membranes. 6. The right lecithin compound for humans (Lecithin ex animalia).	**3**	**FI**						

587	Sea buckthorn berry oil (standardised mixture of carbon dioxide extracted sea buckthorn seed oil and pulp oil) + sea buckthorn flavonoids + vitamin E	Cardiovascular system Immunity	Flavonoid extract produced from sea buckthorn oil and berry contains omega fatty acids that are essential for the body, natural vitamins, antioxidants, flavonoids and plant sterols that combine to promote the health of the heart and body and immunity. Sea buckthorn oil and flavonoid extract have a beneficial effect on heart health and activity in addition to promoting blood circulation in the brain and heart.	**3 and 4**	**FI**						
588	Sea buckthorn seed oil and pulp oil / SBA 24 Sea buckthorn oil: standardised compound of carbon dioxide extracted sea buckthorn seed oil and pulp oil + vitamin E	Skin	1. Sea buckthorn seed and pulp oil nourish the skin and maintain the skin's normal structure and functioning. 2. Sea buckthorn seed and pulp oil renews the skin. 3. SBA24 Sea buckthorn oil, which contains a standardised amount of carbon dioxide extracted sea buckthorn seed and pulp oil, moisturises the skin. 4. SBA24 Sea buckthorn oil, which contains a standardised amount of carbon dioxide extracted sea buckthorn seed and pulp oil, maintains the skin's elasticity.	**0**	**FI**						

655	Mixture of fructo- and galacto-oligosacharides (ratio 9:1, GOS with short chain, FOS with long chain)	Prebiotic mixture Nutricia supports calcium absorption	Prebiotic mixture Nutricia (part of Optivital) contributes to / ensures better calcium absorption	**0**	**SK**						
707	Monounsaturated fatty acids from tallow (cetyl myristate, cetyl myristoleate, cetyl palmitoleate, cetyl laurate, cetyl palmitate, cetyl oleate) [Celadrin TM]	Joint health and mobility	Celadrin supports joint health and mobility Celadrin promotes joint health and mobility	**0**	**UK**						No

717	Vitamins, minerals, trace elements and omega-3 fatty acids (incl. DHA) (Pharmaton Mayeslle)	Supply and maintenance of normal levels of vitamins, minerals, trace elements and fatty acids (DHA) in pregnant and lactating and non-lactating women, as well as for women planning to become pregnant.	Appropriate nutritional support to cover increased needs and maintain adequate body levels of vitamins, minerals, trace elements and fatty acids (DHA) specifically for pregnant, lactating and non-lactating women, as well as for women planning to become pregnant. For an adequate improvement of nutritional status in the pre-conceptional period, before pregnancy starts. To ensure in general an adequate protection of the foetus, as well as to maintain normal levels of iron and folic acid within mother's and foetus's bodies/ To adequately cover needs for iron and folic acid during pregnancy.	**1 and 3**	**UK**						Yes
1137	Water soluble tomato concentrate (WSTC)	Suppression of blood platelet activity, circulatory and heart health	WSTC helps to maintain a healthy heart and benefits circulation; -maintains a healthy circulation; -maintains healthy blood flow.	**0**	**5x DE**	**UK**					Withdrawn by submitter

1169	Energy drinks containing 0.032% caffeine, 0.4% taurine and 0.24% glucuronolactone	Mood and performance	Contains natural caffeine to stimulate your mind. Delivers fresh physical energy while enhancing performance, endurance and concentration.	**0**	**FI**						
1175	Mjölkprotein-koncentrat med högt innehåll av fosfolipider (effektiv komponent fosfatidylserin); Milk protein concentrate with a high content of phospholipids. (Effective component: Phosphatidyl serine); LacprodanÒPL-20	Minskning av stress Förbättrad minnesfunktion Stress reduction Enhanced memory function	Minskar mental och emotionell stress och förbättrar minnet.#B Reduce mental and emotional stress and enhance memory.#B	**0**	**SE**						

1176	Energy, protein, dietary fibre (polydextrose)	Weight control	Low energy products with plenty of protein and fibre, help in weight control. The products help in weight control because they replace high energy products. The products are suitable as part of weight control programmes.	**4**	**FI**						
1183	Mineral salt enriched with potassium and magnesium (57% sodium chloride NaCl, 28% potassium chloride, KCl, 12% magnesium sulphate MgSO4 x 7 H2O)	Electrolyte and fluid balance	Removes fluid from the body.	**3**	**FI**						
1186	Berries and fruit juices/flavonoids + ascorbic acid	Antioxidativity	Includes (natural) flavonoids and other antioxidants. Berry/fruit juice contains a number of constituents with an antioxidative effect that protect the body from damage caused by free radicals. Symbol included in the claim: MarliVital	**0**	**FI**						
1189	Nutritional preparation, powdery	Weight control	For the control of obesity. Has beneficial effects on fat metabolism when slimming.	**0**	**FI**						

1205	Phyto-complex based on extracts of mushroom (Shiitake thalle Lentinula edodes), plants (Acerola fruit Malpighia punicifolia, Papaya fruit Carica papaya, Grapefruit fruit Citrus paradisi, Lemon oil Citrus limon), vitamin C, concentrated fruits juices and	Immune health	Product: In vitro proved efficacy* Help to stimulate one of immunity mechanisms* * Immunomodulatory capacity evaluation on a freshes humans macrophages culture. Product plants and substances: Shiitake contributes to maintain immunological defences Grapefruit extract is recognised for its antioxidative properties Vitamin C helps support the immnune system	**0**	**FR**						
1206	Food supplement of plants (meadosweet, birch, green tea, green coffee, yerba mate), concentrated fruits juices and pectin.	Slimming - Silhouette	Product: Three-in-One Slimming Action Adopt the slimming action relex Specially formulated for those who whish to refine their thighs, cutsand hips. Product plants: Meadowsweet and Birch support the hydric elimination of the kidneys Green tea helps in weight control. Yerba mate is traditionnaly used to contributes to lipid degradation	**0**	**2x FR**						

1287	Weight Watchers foods, which means any individual product in ambient, chilled or frozen form	Can help slimming or weight control	Weight Watchers foods can help slimming or weight control only as part of a calorie controlled diet.	**4**	**UK**						No
1330	Vitalinea fermented dairy products (low fat/reduced or no-added sugars) enriched with protein, enriched with guar gum	appetite	reduces appetite feelings Other examples: help to reduce your appetite, help to feel fuller for longer, help to satisfy for longer, gives lasting satisfaction, increase feeling of fullness, decrease feeling of hunger, decrease feeling of desire to eat, decrease feeling of prospective consumption, increase feeling of satiety	**0**	**2x ES**						
1334	standardized grape seed extract [dry extract from grape seeds of vitis viniferaL. (Vitaceae), solvent of extraction acetone/water 8.5-13.0% proanthocyanidins]	antioxidant protection system	contains naturally occurring antioxidants (to be evaluated by EFSA)	**0**	**2x ES**						

1335	standardized grape seed extract [dry extract from grape seeds of vitis viniferaL. (Vitaceae), solvent of extraction acetone/water 8.5-13.0% proanthocyanidins]	For cardiovascular (heart/vessel) health	maintain heart, cardiovascular and vessel health (to be evaluated by EFSA)	**3**	**2x ES**						
1336	Juice Plus+® (juice concentrate from fruits and vegetables mixtures)	Heart and Vascular Health	promotes heart and vascular health	**3**	**PT**						
1337	Juice Plus+® (juice concentrate from fruits and vegetables mixtures)	Immune system	supports the immune system	**3**	**PT**						
1338	Juice Plus+® (juice concentrate from fruits and vegetables mixtures)	Protection of body tissues and cells from oxidative damage	protects the body tissues and cells from radicals, which cause damage	**0**	**PT**						
1340	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Improves renal function	Improves kidney function — contributes to excretion of excessive salts, water and sodium	**0**	**LV**						

1341	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Improves hepatic functions	Improves liver function — normalizes activity of ferments, helps maintain optimal lipid and cholesterol levels in the blood	**0**	**LV**						
1342	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Improves mechanical activity of gall-bladder	Improves gallbladder mechanoactivity	**0**	**11x DE**	**LV**					
1343	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Improves pancreatic functions	Improves the activity of pancreas — helps maintain the optimal blood sugar level, shortens rehabilitation period after liver, kidney and gallbladder diseases	**3**	**DE**	**LV**					

1344	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Facilates excretion of toxic compounds	1. Contributes to excretion of imunotoxins from the body, helps renew cell functions and energy 2. Helps eliminate toxic compounds from the body such as viral albumen of foreign origin, radioactive metals. 3. Normalizes exchange of proteins, carbohydrates and minerals in healthy humans	**3**	**LV**						
1345	Water-based product (Water purified by reverse osmosis to monomolecular level, complex of salts)	Facilates normalisation of immune functions	Promotes normalization of the immune system functions	**3**	**LV**						

1349	Name of Food product: Toasted Sunflower Mix Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Contains antioxidants & promotes healthy skin Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Toasted Sunflower mix contains antioxidants and promotes healthy skin Is claim a picture: No	**0**	**IE**						
1350	Name of Food product: Toasted Pumpkin Mix Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Promotes healthy heart & immune system Do benefits relate to a disease risk factor: Yes Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Toasted Pumpkin Mix promotes a healthy heart & immune system Is claim a picture: No	**3**	**IE**						

1351	Name of Food product: Club Energise Energy / Energise Energy Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Energy for longer Provide sustained energy rather than a quick burst followed by a slump Do benefits relate to a disease risk factor: No Target group: All adults aged 18 years and over	Exact wording of claim as it appears on product: Energy for longer Formulated with carbohydrate fuel sources that metabolise differently in the body than glucose only energy sources, to pick you up and provide sustained energy rather than a quick burst followed by a slump Fructose-glucose for longer energy Examples of any alternative wording that may be used in relation to claim: Better / faster fluid delivery with a combination of carbohydrates than with glucose alone Is claim a picture: No	**0**	**IE**						

1352	Name of Food product: Sqeez Wild Blueberry Juice Drink Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Anti aging properties Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Blueberries have a wide range of health benefits including anti-ageing properties and the maintenance of urinary tract and vision health. Is claim a picture: No	**3**	**IE**						
1353	Name of Food product: Vanilla Pumpkin Seed Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Promotes healthy skin & boosts energy Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Vanilla Pumpkin Seed promotes healthy skin & boosts energy Is claim a picture: No	**3**	**IE**						

1354	Name of Food product: Club Energise Sport (Orange, Blackcurrant, Lemon) / Energise Sport (Orange, Blackcurrant, lemon) Description of food in terms of food legislation categories: Food intended to meet the expenditure of intense muscular effort, especial	Health benefits of food: Aids recovery by reducing muscle damage during exercise Do benefits relate to a disease risk factor: No Target group: All adults aged 18 years and over	Exact wording of claim as it appears on product: Aids recovery by reducing muscle damage during exercise Is claim a picture: No	**0**	**IE**						
1355	Name of Food product: Multi Seed Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Promotes healthy skin and boosts energy Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Multi Seed promotes healthy skin & boosts energy Is claim a picture: No	**3**	**IE**						

1356	Name of Food product: Toasted Chilli Mix Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Promotes healthy skin & immune system Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Toasted Chilli Mix promotes healthy skin & immune system Is claim a picture: No	**3**	**IE**						

1358	Name of Food product: Club Energise Sport / Energise Sport (Orange, Blackcurrant, Lemon) Description of food in terms of food legislation categories: Food intended to meet the expenditure of intense muscular effort, especially for sports people Was food	Health benefits of food: Ensures better concentration Do benefits relate to a disease risk factor: No Target group: All adults aged 18 years and over	Exact wording of claim as it appears on product: Ensures better concentration Is claim a picture: No	**0**	**IE**						
1364	Name of Food product: Water Soluble Wolfberry Concentrate Description of food in terms of food legislation categories: Food supplement Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Normal Immune Function Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Normal Immune Function Is claim a picture: No	**3**	**IE**						

1365	Name of Food product: Sqeez Cranberry Juice Drink Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Cranberries may be powerful protectors of our gums Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: More recently, emerging research suggests that cranberries may also be powerful protectors of our health in other areas of the body, such as the stomach, gums and even the heart Is claim a picture: No	**3**	**IE**						
1366	Name of Food product: Water Soluble Wolfberry Concentrate Description of food in terms of food legislation categories: Food supplement Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Aging Management Do benefits relate to a disease risk factor: No Target group: All adults aged 18 years and over	Exact wording of claim as it appears on product: Aging Management Is claim a picture: No	**3**	**IE**						

1368	Name of Food product: Sqeez Cranberry and Orange Juice Drink, Sqeez Light Cranberry Juice Drink Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: More recently, emerging research suggests that cranberries may also be powerful protectors of the stomach Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: More recently, emerging research suggests that cranberries may also be powerful protectors of our health in other areas of the body, such as the stomach, gums and even the heart. Is claim a picture: No	**3**	**IE**						
1369	Name of Food product: Sqeez Wild Blurberry Juice Drink Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Maintenance of urinary tract Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Blueberries have a wide range of health benefits including anti-ageing properties and the maintenance of urinary tract and vision health Is claim a picture: No	**3**	**IE**						

1370	Name of Food product: Sqeez Wild Blueberry Juice Drink Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Vision health Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Blueberries have a wide range of health benefits including anti-ageing properties and the maintenance of urinary tract and vision health Is claim a picture: No	**3**	**IE**						

1396	Name of Food product: Club Energise Sport Recovery 20 / Energise Sport recovery 20 (mixed berry) Description of food in terms of food legislation categories: Food intended to meet the expenditure of intense muscular effort, especially for sports people	Health benefits of food: Recover Faster for Better Sports Performance High protein drink Carbohydrate and Protein recovery drink Do benefits relate to a disease risk factor: No Target group: Adults aged 18 years and over with some exceptions If excepti	Exact wording of claim as it appears on product: Recovery 20 - high protein drink Protein recovery drink Recover Faster for Better Sports Performance In order for athletes to train or compete daily they must recover quickly. Replacing muscle and liver glycogen stores as rapidly as possible is essential for successful recovery. Recent studies have shown that a combination of carbohydrate and proteins maximise post-exercise glycogen synthesis compared to carbohydrate supplementation alone. Examples of any alternative wording that may be used in relation to claim: Helps to rebuild muscles after exercise Helps muscles recover their energy - rebuild muscle glycogen, repair muscle protein Is claim a picture: No	**0**	**IE**						

1397	Sauermilchmolken konzentrat mit L (+) Milchsäure; Hochkonzentrat der Sauermilchmolke mit 10% Milchsäureanteil, frei von Fett und Milcheiweissen, enthält alle Mineral und Spurenelemente der Milch in höherer Konzentration	Förderung der Darmflora durch Milieubereitung, Erhöhte Calcium und Natriumzufuhr bei Durchfall und Brechdurchfällen, Verbesserung der Resorption bei Malabsorptionserkrankungen, Maldigestion, Verbesserung der Sekretionsleistung des Verdauungsystems, Resorp	[In german :] Verbessert die Nährstoffverwertung	**4 and 6**	**2x DE**						
1400	Emulsion aus Palm- und Haferöl	Gewichtsmanagement	[In german :] hilft, weniger zu essen	**6**	**5x DE**						
1482	Buckwheat extract containing flavonoid-mineral (troxerutin - zinc) complex (Coldizin)	Immune system function	Coldizin helps support the immune system	**3**	**UK**						Yes
1514	Combination of millet extract + L-cystine + vitamin B5 (calcium panthothenate)	Support of hair growth	Supports healthy hair growth from within Supports the growth of healthy hair & nails Supports metabolism of the hair roots	**0**	**UK**	**NL**					Yes

1515	Combination of B vitamins (Riboflavin (B2), Niacin, Pyridoxine (B6), vitamin B12, Biotin, Pantothenic Acid, Folic Acid), vitamin C, calcium, magnesium and zinc	Sustained mental performance	Help you stay on top form mentally May help maintain concentration and alertness	**4**	**UK**						Yes
1531	EAS Creatine (EAS Phosphagen)	Increasing Strength	Gains in Lean Muscle Mass EAS Creatine (EAS Phosphagen) is clinically shown effective for building muscle mass" NOT "EAS Creatine (formally Phosphagen)	**0**	**UK**						Yes
1532	EAS Creatine (EAS Phosphagen)	Increasing Mass	EAS Creatine (EAS Phosphagen) is clinically shown to help: Support Gains in Lean Muscle Mass EAS Creatine (formerly Phosphagen) is clinically shown effective for building muscle mass	**0**	**UK**						Yes
1533	EAS Creatine (EAS Phosphagen)	Increasing Lifting Volume and Performance	EAS Creatine (EAS Phosphagen) is clinically shown to help increase lifting volume.	**0**	**UK**						Yes
1534	EAS Creatine (EAS Phosphagen)	Increasing Power	EAS Creatine (EAS Phosphagen) is clinically shown to help: Increase Power EAS Creatine (EAS Phosphagen) is clinically shown effective for improving muscular power	**0**	**UK**						Yes

1535	EAS Creatine (EAS Phosphagen)	Increasing Work Capacity	EAS Creatine (EAS Phosphagen) is clinically tested to improve anaerobic work capacity	**0**	**UK**						Yes
1536	EAS Phosphagen Elite	Increasing Strength	EAS Phosphagen Elite is clinically shown to boost muscular strength EAS Phosphagen Elite is clinically shown to increase strength by up to 15% EAS Phosphagen Elite is designed to boost overall muscular strength Boost muscular strength	**0**	**UK**						Yes
1537	EAS Phosphagen Elite	Increasing Work Capacity	EAS Phosphagen Elite is clinically shown to increase anaerobic threshold EAS Phosphagen Elite is clinically shown to increase physical working capacity at fatigue threshold	**0**	**UK**						Yes
1538	EAS Phosphagen Elite	Enhancing Training Volume & Intensity	EAS Phosphagen Elite is designed to provide a higher quality workout, and the addition of beta alanine appears to enhance average training volume more so than creatine alone EAS Phosphagen Elite is clinically shown to result in greater training volume threshold	**0**	**UK**						Yes

1539	EAS Phosphagen Elite	Increasing Exercise Thresholds	Amp up your workout with EAS Phosphagen Elite, clinically shown to improve ventilatory and lactate thresholds for greater cardiorespiratory endurance in intense workouts (training) EAS Phosphagen Elite is clinically shown to improve ventilatory and lactate thresholds	**0**	**UK**						Yes
1540	EAS Phosphagen HP	Increasing Strength	EAS Phosphagen HP is clinically shown to increase strength EAS Phosphagen HP is clinically shown to boost muscular strength EAS Phosphagen HP is designed to boost overall muscular strength	**0**	**UK**						Yes
1541	EAS Phosphagen HP	Increasing Mass	EAS Phosphagen HP is clinically tested to increase lean body mass	**0**	**UK**						No
1542	EAS Phosphagen HP	Increasing Lifting Volume and Performance	EAS Phosphagen HP is clinically shown to improve bench press lift volume and total lift volume.	**0**	**UK**						No
1543	EAS Phosphagen HP	Enhancing Anaerobic Working Capacity	EAS Phosphagen HP can help improve total anaerobic work performed EAS Phosphagen HP is clinically tested to help improve anaerobic work capacity EAS Phosphagen HP can help improve total anaerobic work performed	**0**	**UK**						Yes

1547	Ester-C	Antioxidant properties/Immune health	Antioxidant that enhances Vitamin C absorption's and contributes to the functioning of the immune system	**0**	**UK**						No
1548	Ester-C® (Calcium ascorbate with a content of threonate)	Enhances vitamin C absorption without irritating the GI tract, compared with ascorbic acid	Quickly absorbed and gentle on your stomach. Enhances the absorption of Vitamin C. Ester-C® is non-acidic which means it is stomach friendly.	**3**	**UK**						Withdrawn by submitter
1549	Ester-C® (Calcium ascorbate with a content of threonate)	Enhanced cellular uptake and delayed renal excretion, compared with ascorbic acid, contribute to enhanced white blood cell vitamin C levels supporting immune function and health maintenance	Enhances uptake and retention of vitamin C Works synergistically to enhance the absorption and retention of vitamin C in your body The better vitamin C 24-hour support 24-hour protection Immune system support at the cellular level for up to 24 hours	**3**	**UK**						Withdrawn by submitter
1553	Formulated palm and oat oil emulsion	Weight management	Helps to eat less -helps to reduce weight regain after dieting	**0**	**UK**						Yes

1555	Glisodin	Prevents lactic acid build up, allowing sports people to improve performance	Reduces lactic acid build up in humans under physical stress (e.g. sports people). Improves stamina/ performance Aids recovery after strenuous exercise. Helps the body to recover after strenuous exercise. Produces a limiting effect against lactic acid build up	**0**	**UK**						No
1619	Mycoprotein	Cholesterol maintenance	As part of a low fat diet, mycoprotein helps maintain normal cholesterol levels that keep your heart healthy	**0**	**UK**						Yes
1620	Mycoprotein	Reduction in calorie content due to increased satiety	Mycoprotein satisfies your appetite for longer on fewer calories	**0**	**UK**						Yes
1656	Standardised Potato Extract	Satiety/Weight management/Promotion of CCK release and soy foods	When taken before a meal, supports the body's natural satiety response /naturally supports feelings of fullness after a meal /helps manage appetite and hunger /promotes feelings of fullness and satiety /satiety aid /helps to feel full sooner	**0**	**UK**						Yes

1666	Tomato extract, grape seeds extract, vitamin C and E, Selenium (Seresis Pharmaton)	Antioxidant combination, for antioxidant protection system	scientifically proven mix of naturally occurring antioxidants that work in synergy helping to protect cells from free radical damage scientifically proven to help maintaining a good level of vitamins and antioxidants in the whole body for maintenance and functions of cells (scientifically proven with product-related studies)	**5**	**UK**						Yes
1667	Tomato extract, grape seeds extract, vitamin C and E, Selenium (Seresis Pharmaton)	For cardiovascular health	For maintenance of heart and cardiovascular health, Helps to improve cardiovascular system, general ageing process, immunological problems and protecting from environmental stresses	**3**	**UK**						Yes
1668	Tomato extract, grape seeds extract, vitamin C and E, Selenium (Seresis Pharmaton)	Skin anti-ageing agent	Helps to improve general ageing process, protecting skin from environmental stress, scientifically proven to help protecting the skin from premature ageing	**3**	**UK**						Yes
1669	Tomato extract, grape seeds extract, vitamin C and E, Selenium (Seresis Pharmaton)	For skin health	It helps to improve health and appearance of the skin by improving the development of collagen, It supports the skin's natural defences against UV-irradiation (sun) induced damage	**5**	**UK**						Yes

1673	Vitamins, minerals, trace elements and standardized ginseng G115 extract (Pharmaton capsules, film coated tablets, effervescent)	Mental performance	in cases of decreasing concentration as well as decreasing mental alertness. scientifically proven to promote maintenance of mental faculties .	**5**	**2x UK**						Yes
1674	Vitamins, minerals, trace elements and standardized ginseng G115 extract (Pharmaton capsules, film coated tablets, effervescent)	Energy metabolism	scientifically proven to help to sustain energy within the body throughout the day and to help coping with stress.	**3**	**UK**						Yes
1675	Vitamins, minerals, lysine and/or arginine and/or taurine (Pharmaton Kiddi)	Nutritional support (for children and adults) in case of unbalanced nutrition	It helps to support an adequate vitamins/minerals/lysine supplementation in children, in case of unbalanced or insufficient nutrition and lack of appetite, Pharmaton Kiddi is also suitable for adults.	**5**	**UK**						Yes
1676	Vitamins, minerals, lysine and/or arginine and/or taurine (Pharmaton Kiddi)	Nutritional support after illness	When a child is recovering from illness, or has a loss of appetite, Pharmaton Kiddi provides important vitamins, minerals. These are important for developing and supporting proper immune system functions.	**3**	**UK**						Yes

1677	Vitamins, minerals, lysine and/or arginine and/or taurine (Pharmaton Kiddi)	Nutritional support to help mental performance	scientifically proven to support attention and mental performance	**5**	**UK**						Yes
1678	VitaVeggie® Vegetable Antioxidant Blend	Excellent source of healthy vegetable antioxidants	VitaVeggiet® Vegetable Antioxidant Blend is an excellent source of healthy vegetable antioxidants.	**5**	**UK**						No
1694	Biogenina® (calcio pantotenato, N-(3-aminopropil)-tatrametilendiammina tricloridrato, Biotina[2]	Trofismo della cute e annessi, ciclo di vita dei capelli	Utile per il trofismo (nutrimento e benessere) nelle varie fasi del loro ciclo di vita. E' di stimolo per la proliferazione delle cellule del bulbo pilifero, favorendo la fase di crescita dei capelli (anagen) e contrastandone la caduta. Favorisce una corretta biosintesi della cheratina, principale componente dell'unghia. Stimola le cellule della matrice ungueale, favorendo la crescita delle unghie.	**6**	**2x IT**						
1699	Meteonine, zinc, vit B5 and B8	TrophYsm of skin and related tissues	Ii hepls t ogive strength and volume to the hair.	**5**	**IT**						

1709	1. Ilex paraguеariensis St.-Hil. - Green Mate leaf extract 2. L-Carnitine 3. conjugated linolic acid	Targets the main causes of cellulite	Targets the main causes of cellulite	**3**	**BE**						
1733	INVERSION femme food supplement	Skin condition; wrinkles and hydration	- offers a global solution to the signs of ageing that are reflected in our skin - protects skin from the effects of free radicals - provides the skin with the essential nutrients needed for renewal and growth - significant reduction in the depth of wrinkles - significant increase in skin moisture	**5**	**BE**						
1734	INVERSION femme food supplement	Weight management	- offers a global solution to the signs of ageing that are reflected in our body shape - its thermogenic effect: it contributes increasing the amount of energy used by the body thus preserving a young body shape - encourage thermogenesis and hence the preservation of your figure. - significant weight loss - Reduction of circumference of the thigh	**5**	**BE**						

1735	INVERSION femme food supplement®	Hair and nails growth and condition	- offers a global solution to the signs of ageing that are reflected in our hair and our nails - protects hair and nails from the effects of free radicals - provides the skin, nails and hair with the essential nutrients needed for renewal and growth - impovement of the strength and appareance of the nails	**5**	**2x BE**

1744	Mixture (FPP-F-0703): L-glutamine, Xanthan, Calcium Lactate, Trimagnésium phosphate, Zinc gluconate, Lactobacillus casei, Lactobacillus rhamnosus, Bifidobacterium longum, Vitamin B9, Vitamin B12, Papain (Carica papaya), Lactase, C	Stimulates the cellular growth and the reconstruction of tissus.	* Helps to enhance a healthy intestine * Realizes a intestinal dressing that confers a general well-being.	**3**	**BE**						
1747	Policosanol / Blend of aliphatic alcohols - consisting primarily of 1-Octacosanol, 1-Triacontanol, 1-Tetracosanol and 1-Hexacosanol - from sugar cane (Saccharum officinarum).	Cholesterol	Policosanol helps to maintain healthy cholesterol levels / contributes to good LDL cholesterol level / contributes to good HDL cholesterol level	**0**	**BE**						

1748	Policosanol [from sugarcane wax (Saccarum officinarum)]	Support for Healthy Blood Lipid Levels”	"Support for Healthy Blood Lipid Levels” “Natural Blood Lipid Support” “Policosanol supports healthy lipid metabolism.” “Policosanol may promote LDL binding, uptake, and degradation” “Policosanol may help maintain healthy blood pressure levels already within normal range.”	**0**	**BE**						
1749	Powder of instant drink (FPP-F-0701): Concentrate of soya (Glycina Max.), Tryptophan, Inulin, Sterculia gum, Xanthan, Pectin, Calcium lactate, Trimagnesium phosphate, Zinc gluconate, Lactobacillus casei, Lactobacillus rhamnosus, Bifidobacterium longum, Vi	Satiety/Weigth management	* Helps to reduce the appetite and the desire of sugar. . * Helps to reduce the fat mass and to maintain healthy cholesterol levels * Regulation of transit and intestinale flora, stabilisation of weight.	**5**	**BE**						

1753	Tomato extract, grape seeds extract, vitamin C and E, Selenium	Antioxidant combination, skin anti-ageing agent, skin health,	Contains naturally occurring antioxidants /for cell protection. Helps to protect cells from free radical oxidation Mix of antioxidants that work in synergy. For maintenance and function of cells. Helps to improve general ageing process, immunological problems and protecting from environmental stress. Help protecting the skin from premature ageing caused by free radicals. It improves the development of collagen. It brings benefits to the skin tissues. It helps to improve health and appearance of the skin. Help maintaining a good level of vitamins and antioxidants in the whole body	**5**	**BE**						
1754	Tomato extract, grape seeds extract, vitamin C and E, Selenium	For antioxidant protection system, cardiovascular health	Contains naturally occurring antioxidants. For cell protection. Helps to protect cells from free radical oxidation Mix of antioxidants that work in synergy . For maintenance and functions of cells. Helps protecting from environmental stresses.	**5**	**BE**						

1765	standardized grape seed extract [dry extract from grape seeds of vitis viniferaL. (Vitaceae), solvent of extraction acetone/water 8.5-13.0% proanthocyanidins]	antioxidant protection system	contains naturally occurring antioxidants (to be evaluated by EFSA)	**0**	**2x ES**						
1766	standardized grape seed extract [dry extract from grape seeds of vitis viniferaL. (Vitaceae), solvent of extraction acetone/water 8.5-13.0% proanthocyanidins]	For cardiovascular (heart/vessel) health	maintain heart, cardiovascular and vessel health (to be evaluated by EFSA)	**3**	**2x ES**						
1794	Boswellia + shark cartilage extract	Joints	Supports joint functioning. For joint health. Maintains joint health and flexibility. Suppresses collagen and cartilage substance breakdown by inhibiting the matrix's metalloproteinase.	**0**	**FI**						
1801	Fenugreek + alpha-lipoic acid + chrome	Carbohydrate metabolism and insulin sensitivity	Has a positive effect on the body's sugar metabolism. Balances blood sugar. Reduces high blood sugar. Increases the body's insulin sensitivity. Improves a weakened insulin effect.	**0**	**FI**						

1802	Fenugreek + alpha-lipoic acid + chrome	Blood lipid levels	Has a favourable effect on blood lipid levels.	**0**	**FI**						
1810	Floral pollen + fermented pollen + royal jelly	Bone	Strong bones. Helps bones to stay strong.	**0**	**FI**						
1811	Floral pollen + fermented pollen + Royal Jelly	Mental state and performance	Stimulating/stimulates. Invigorating. Mood-raising. Reduces restlessness. Improves concentration.	**3**	**FI**						
1812	Floral pollen + fermented pollen + Royal Jelly	Immunity	Makes the body's immunity more effective.	**3**	**FI**						
1823	L-carnitine + green tea extract	Weight control	Utilises fat as an energy source. Helps with weight control. Makes energy use more efficient by utilising fatty acids and reducing the need for carbohydrates.	**0**	**FI**						

1830	Mushroom extract + apple polyphenol	Mouth, respiratory passages	Effectively removes the odour of e.g. garlic, tobacco and alcohol. Helps to freshen the bad odour caused by illness or medicines. Helps to remove unpleasant odours from the source, not does not just mask them. Prevents the activity of odoriferous bacteria in the mouth and digestive system. Removes odours ensuing from sulphur compounds. Freshens the breath. Symbol included in the claim: The picture shows the side profile of a person with “fresh” pale blue breath coming from the mouth.	**1**	**FI**						
1843	Psyllium fibre + dried herbs	Metabolism	Activates the metabolism. Activates secretive organs. Promotes the secretion of waste products from the body.	**3**	**FI**						
1847	Red rice + folic acid + vitamin B6 + vitamin B12	Cardiovascular system	Heart-friendly. Promotes heart health. Helps to maintain good cardiovascular health. Good for the heart.	**3**	**FI**						
1848	Red rice + folic acid + vitamin B6 + vitamin B12	Cardiovascular system	Helps to control cholesterol. Has a beneficial effect on lipid metabolism. Decreases the formation of cholesterol in the body.	**4**	**FI**						

1856	Shark cartilage – crustacean extract	Hair	Makes hair grow. Makes hair grow and strengthens it. Reduces hair loss. Improves the nutrient supply for hair glands – supports hair gland activity – the hair gland becomes stronger – growth of new hair recovers.	**4**	**FI**						
1857	Sodium bicarbonate + wine acid + anhydrous citric acid + sodium carbonate	Gut health	Balances the stomach. Neutralises gastric acids. Neutralises the stomach. For a stomach troubled by coffee, greasy food, haste, tension, alcohol and other forms of stress. When dissolved in water, forms an acid-neutral buffer system.	**0**	**FI**						
1859	Soy isoflavones + lycopene + zinc + selenium + vitamin D + vitamin E + vitamin C	Sexual organs and/or hormone activity	Good for the prostate gland. A carefully considered combination of important isoflavones, vitamins and minerals for men's well-being. Name of symbol included in the claim: MenBalans®	**3**	**FI**						
1860	Soy + magnesium + calcium + zinc + manganese + copper + vitamin B6 + vitamin D + vitamin K	Bone	Strong bones. The best for your bones. Good ageing. The soy flavones and mineral substances, calcium, magnesium, zinc, manganese and copper, together with vitamins B6, D and K protect the bones. Name or symbol included in the claim: Osteobalans®	**4**	**FI**						

1861	Soy isoflavones + Royal Jelly	Immunity	Supports the body's own defence system/immunity Maintains natural defence mechanism / immunity Helps strengthen natural immunity	**3**	**FI**						
1862	Soy isoflavones + Royal Jelly	Sexual organs and/or hormone activity	Balances hormone activity. For menopausal women. Phytoestrogen.	**3**	**FI**						
1863	Soy isoflavones + Royal Jelly / Royal Jelly + pollen	Mental state and performance Physical performance and fitness	Contributes to good physical condition. Maintains vigour and vitality. Helps to maintain good physical and mental condition.	**3**	**FI**						
1865	Theanine + oat shoot extract	Mental state and performance	Promotes relaxation without drowsiness. Reduces tension. Help for tension, stress tolerance, concentration. Natural help for those under tension and stress.	**0**	**FI**						
1866	Xylitol + fluorine + calcium carbonate + disodium hydrogen phosphate	Mouth, teeth	Strenthens and renews tooth enamel. Stops/interrupts acid attacks. Increases weakened saliva secretion.	**4**	**FI**						

1868	Name of Food product: Product-specific claim: sodium alginate and ascophyllum nodosum Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: No	Health benefits of food: Alginate can reduce the activity of digestive enzymes and reduce glucose absorption. Polyphenols found in ascophyllum nodosum inhibit enzyme activity and reduce the glycaemic load of meals Do benefits relate to a disease risk fac	Exact wording of claim as it appears on product: Helps manage blood glucose levels Examples of any alternative wording that may be used in relation to claim: Reduces heightened glycaemic index/Blunts glucose elevation/Reduces glycaemic load of a meal/Helps maintain a normal blood glucose level as part of a healthly lifestyle/Contributes to normal glucose metabolism/Helps control blood glucose levels/Supports maintenance of normal glucose levels Is claim a picture: No	**0**	**IE**						

1870	Name of Food product: Multimineral (derived from the red seaweed Lithothamnion Coralliodes, Trade name Aquamin) Description of food in terms of food legislation categories: Food supplement Was food on Irish market before 1st July 2007: Yes	Health benefits of food: Aquamin - marine multiminerals which promote healthy joints. Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: Aquamin - marine multiminerals which promote healthy joints. Examples of any alternative wording that may be used in relation to claim: Multiminerals promote healthy joints. Multiminerals maintain healthy joints. Multiminerals promote good joint health. Marine multiminerals maintain healthy joints. Is claim a picture: No	**4**	**IE**						

1871	Name of Food product: Product-specific claim: sodium alginate, n-acetyl cysteine and piperine Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: No	Health benefits of food: Alginate binds heavy metals, stimulates mucin production and protects the colon. N-acetylcysteine detoxifies and removes heavy metals. Piperine increases the bioavailability of n-acetylcysteine. Do benefits relate to a disease ri	Exact wording of claim as it appears on product: Supports body detoxification Examples of any alternative wording that may be used in relation to claim: Rids toxins from the body/Aids colonic health/Protects the colon/Cleanses the body/Helps maintain a healthy colon/Promotes healthy conditions in the colon/Detoxes the body Is claim a picture: No	**3**	**IE**						

1873	Name of Food product: Product-specific claim: sodium alginate and ulva Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: No	Health benefits of food: Alginate and ulva bind toxins, mutagens and heavy metals. They can also stimulate and increase colonic mucin production and thicken the colonic mucosa and protect the colon from harmful substances. Do benefits relate to a disease	Exact wording of claim as it appears on product: Seaweed fibres support body detoxification Examples of any alternative wording that may be used in relation to claim: Seaweed fibres rid toxins from the body/Seaweed fibres aid colonic health/Seaweed fibres protect the colon/ Seaweed fibres can detox the body/Seaweed fibres help maintain a healthy colon/Seaweed fibres promote healthy conditions in the colon Is claim a picture: No	**3**	**IE**						
1875	Name of Food product: Olivenol livin' BEGIN Description of food in terms of food legislation categories: Food supplement Was food on Irish market before 1st July 2007: No	Health benefits of food: A potent source of antioxidant Do benefits relate to a disease risk factor: No Target group: All of the general population including children and adults	Exact wording of claim as it appears on product: A potent source of antioxidant biophenols for strengthening and balancing of immune system Examples of any alternative wording that may be used in relation to claim: Olive biophenols are important for balanced immune systems Antioxidant is important for healthy and balanced immune system Is claim a picture: No	**0**	**IE**						

1881	Name of Food product: Product-specific claim: Sodium alginate and ascophyllum nodosum Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: No	Health benefits of food: Alginate can reduce the activity of digestive enzymes and reduce glucose absorption. Polyphenols found in ascophyllulm nodosum inhibit enzyme activity and reduce the glycemic load of meals. Do benefits relate to a disease risk fa	Exact wording of claim as it appears on product: Helps manage blood glucose and insulin levels Examples of any alternative wording that may be used in relation to claim: Reduces heightened glycaemic index/Blunts glucose and insuin elevation/Reduces the glycaemic load of a meal/Helps maintain a normal blood glucose level as part of a healthy lifestyle/Contributes to normal blood glucose levels as part of a healthy lifestyle/Contributes to normal glucose/insulin metabolism/Helps control blood glucose levels/Supports maintenance of normal glucose levels Is claim a picture: No	**0**	**IE**						

1884	Name of Food product: Product-specific claim: sodium alginate, HCA and piperine Description of food in terms of food legislation categories: food not covered by specific food legislation Was food on Irish market before 1st July 2007: No	Health benefits of food: Alginate forms a gel in the stomach and promotes an immediate feeling of satiety. It may also trap a portion of HCA. Piperine increases the bioavailability of the un-trapped HCA and enhances satiety. Do benefits relate to a disea	Exact wording of claim as it appears on product: Helps manage appetite and hunger Examples of any alternative wording that may be used in relation to claim: Contributes to reduce the appetite/Can help in the management of weight control/Promotes the feeling of fullness and satiety/Helps to fel full sooner/Helps to stay full longer/Assists weight management/Helps to reduce the appetite and inhibits conversion of carbohydrates to fats/Helps maintain a healthy level of appetite Is claim a picture: No	**0**	**IE**
