The Nutrition and Health Claims (England) (Amendment) Regulations 2010

DETAIL OF CONSULTATION

Introduction

1. The Nutrition and Health Claims (England) Regulations 2007 (SI 2007 No. 2080) make provision for the execution and enforcement of Regulation (EC) No. 1924/2006¹. According to regulation 2(1)(d) of the SI “the Regulation” is defined as Regulation 1924/2006 as corrected.
2. Article 8.2 of Regulation 1924/2006 provides for the list of nutrition claims in the annex to be amended in accordance with the regulatory procedure with scrutiny. At the 1st October meeting of the Standing Committee on the Food Chain and Animal Health, EU member states voted to add five fatty acid claims (“source of omega-3 fatty acids”; “high omega-3 fatty acids”; “high monounsaturated fat”; “high polyunsaturated fat” and “high unsaturated fat”) to the list. The draft Commission Regulation to amend the Annex accordingly, after undergoing scrutiny by the Council and the European Parliament, is likely to be adopted in mid February 2010 and will come into force 20 days after publication in the Official Journal of the European Union.
3. In order to provide for enforcement with respect to the new claims SI 2007 No. 2080 needs to be amended so that it refers to 1924/2006 as amended by this forthcoming Commission Regulation. However, the European Commission has recently put forward a draft proposal which would make further amendments to the nutrition claims annex and any resultant Commission Regulation would require the SI to be amended again. It is possible that there will also be further future amendments.

Proposals

(1) Do nothing.

(2) Amend the Nutrition and Health Claims (England) Regulations 2007 to take account of the Commission Regulation adding five fatty acid claims to the annex to 1924/2006; then amend the England Regulations again when there are further amendments.

(3) Amend the Nutrition and Health Claims (England) Regulations 2007 to introduce an ambulatory reference to Regulation (EC) No. 1924/2006.

Preferred option

Each change to the nutrition claims annex could be dealt with by a separate amendment to the Nutrition and Health Claims (England) Regulations. However, the most efficient way to provide for these similar changes to the SI would be to amend regulation 2(1)(d) so that it makes an ambulatory reference to 1924/2006 as amended from time to time. Option 3 is therefore the preferred option.

Consultation Process

1. A 12-week public consultation is being undertaken on the draft SI and all responses received as part of this consultation will be given careful consideration. These will be summarised and published on the Agency’s website in due course.

¹ As corrected by a Corrigendum (OJ No. L12, 18.1.2007, p3) and since amended by EC Regulations 107/2008 and 109/2008.

Question asked in this consultation:

Q1: Do you have any comments on introducing an ambulatory reference to Regulation (EC) No. 1924/2006 into the 2007 Regulations? If so, please send them to us.

Q2: Will the proposed regulation impose any new burdens on your business? If so, please provide details including costs.

Q3: Do you have any comments on the drafting of this SI? If so, please send them to us.

2. We welcome comments from all stakeholders. Please send your response by email or post using the contact details on page 1.
